COMMERCIAL CREW INTEGRATED CAPABILITY Announcement: NASA-CCiCap

48. Does the ISS group have any future plans to train or certify flight participants?

Answer: If a Participant proposes to reach the ISS during the demonstration flight, a Reimbursable Space Act Agreement with the ISS Program will be required for all necessary training and certification of the visiting crewmembers to ensure the safety of the ISS and its crewmembers. ISS is considered a NASA resource as described in section 4.8 of the Announcement. NASA does not plan to train or certify Participants' crew for non-ISS activities.

49. Can a Participant propose doing a flight demonstration to the ISS?

Answer: A Participant can propose a flight demonstration to the ISS. If a Participant proposes to reach the ISS during the demonstration flight, the Participant will need to enter a Reimbursable Space Act Agreement with the ISS Program for all NASA work necessary to verify compliance with visiting vehicle requirements. ISS is considered a NASA resource as described in section 4.8 of the Announcement.
